

# A Supplement to the Annotated List of Opisthobranchs from San Luis Obispo County, California

BY

RICHARD A. ROLLER

1127 Seaward Street, San Luis Obispo, California 93401

SINCE COMPILATION of the original list of opisthobranchs, the continued collection of specimens and additional data from San Luis Obispo County require a supplement to that list. Also, two more inferred species for the county, and an omission from the original "Literature Cited" section should be added at this time.

I would like to acknowledge the kind assistance of Mr. Gary R. McDonald and Mr. Steven J. Long for furnishing collecting data and specimens.
